UFOs Over British Columbia by Brian Vike

(Brian Vike is the director of HBCC UFO Research and has spoken to thousands of UFO eyewitnesses. He lives in Houston, BC)

Over many years British Columbian's have been witnessing hundreds upon hundreds of unidentified flying objects in the day and night skies- and wanting answers to what they've witnessed. This is the purpose of investigating the flood of reports that come over my desk. Yes, many of the sightings reported to HBCC UFO Research do have an explanation, but many others go unsolved, and remain a complete mystery.

I have spoken to many, many UFO sighters. One of the most fascinating interviews was from a witness who spoke out about the "Kelowna Missing Time Experience" (this incident was featured on the Canadian TV show "Creepy Canada") where two women observed a large green ball hovering over the highway ahead of them. Frightened, they turned their vehicle around and headed back towards Kelowna, B.C., only to discover the next morning that one of the ladies had a bad burn on her tail bone and the other woman had a lot of bruising to her body. One of those women was hospitalised and, to this day, still suffers with an unknown medical condition.

There was a recent Kelowna sighting (July 2, 2007) where two UFOs appeared to be battling it out over Lake Okanagan:

"According to a report submitted to HBCC UFO Research a witness reported seeing two objects in the sky (one thin and long, and the other triangular or possibly cone shaped). After hovering for a while, a bang (like the sound of a gun) was heard and the long shaped craft began to hurtle towards the ground seemingly on fire and crashed into a lake.

Soon afterwards the craft reappeared out of the water and headed towards another object in the sky, where a "Star Wars" type fight seemed to take place. Another bang, but much louder, was heard and the cone shaped UFO vanished." (From The "American Chronicle" online newssite.)

Another recent report comes from the Tranquille area north of Kamloops, B.C. This from a man, his grandfather (Dr. John Bower), his wife, Winifred Bower, his mother, a social worker/English teacher, Angela Linge, his father, Frederick Linge a psychologist and his younger sister, Rachel.

They were taking a break from moving chores in the backyard around 11:00 P.M.. They looked up to the southern sky, just above the mountaintops and saw six bright lights flying around each other in what seemed to him like they were playing "tag" in the sky. The lights were doing figure eight motions at very high speed. They all watched the lights for about ten minutes. Then, the lights all formed a circle shape in the sky, hovered there for about ten seconds, then sped away in every direction from the centre of the circle. They moved so fast that after about a second or two, they were gone.

Brian Vike has been featured in UFO documentaries, newspaper articles and radio shows and hosts his own radio show every Sunday evening, bringing on guests who have had an UFO experience.

"If you have had a sighting, no matter what year it happened in, please do file your report as every sighting is important and the information is very valuable to me. Also please note that people filing a report remain anonymous unless otherwise instructed."

Brian Vike - Director of HBCC UFO Research- can be reached at: <http://www.hbccufo.org> or at 250 845 2180.

WHEN YOU NEED US, WE'RE CLOSE BY.

- If you wish to discuss your funeral arrangements, please give us a call. Pre-arrangements made at no charge.
- Whether you're arranging a cremation, memorial service, celebration of life, or a traditional funeral service, we'll help you every step of the way.
